## 1. Area and Civil Divisions (1961 Census)

|                                |       |         |
|--------------------------------|-------|---------|
| Area (Square Miles)            | .. .. | 106,286 |
| Total Population (Lakhs)       | .. .. | 359.8   |
| No. of Districts               | .. .. | 20      |
| No. of Taluks                  | .. .. | 189     |
| No. of Towns and Cities        | .. .. | 212     |
| Density (Persons per sq. mile) | .. .. | 339     |

## 2. Agriculture (1961-62)

### Area and Outturn

| Crops           | Area<br>(Thousand<br>acres). | Outturn<br>(Thousand<br>tons). |
|-----------------|------------------------------|--------------------------------|
| (1)             | (2)                          | (3)                            |
| Rice            | 72,18                        | 35,98                          |
| Jawar           | 60,71                        | 13,19                          |
| Pulses          | 31,42                        | 2,65                           |
| Groundnut       | 21,95                        | 5,80                           |
| Castor          | 6,76                         | 41                             |
| Sugarcane       | 2,15                         | 6,69                           |
| Cotton in bales | 8,16                         | 1,28                           |
| Tobacco         | 3,86                         | 1,24                           |
| Chillies        | 3,05                         | 85                             |

## 3. Land Utilization (1959-60)

|               | (’000 Hectares) |
|---------------|-----------------|
| Net area sown | 1,08,89         |
| Forest        | 59,14           |

|   |         |
|---|---------|
| Current fallows                         | 22,27   |
| Other fallows                           | 9,68    |
| Barren and uncultivable land            | 23,32   |
| Land put to non-agricultural uses       | 17,01   |
| Cultivable waste                        | 17,57   |
| Pastures and grazing lands              | 12,34   |
| Miscellaneous — Trees, Crops and Groves | 2,75    |
| Total                                   | 2,72,97 |

|                          |         |
|--------------------------|---------|
| Area sown more than once | 10,58   |
| Total cropped area       | 1,19,47 |
| Figures are Provisional. |         |

## 4. Irrigation by Sources (1959-60) (Area in ’000 Hectares)

|                          |       |
|--------------------------|-------|
| Government canals        | 12,69 |
| Private canals           | 13    |
| Tanks                    | 12,55 |
| Tube wells               | 6     |
| Other wells              | 2,92  |
| Other Services           | 1,15  |
| Total Net irrigated area | 29,50 |

Figures are Provisional.

## 5. Quinquennial Livestock Census — 1961 (in thousands)

|                   |        |
|-------------------|--------|
| Cattle            | 12,345 |
| Buffaloes         | 6,949  |
| Sheep             | 8,363  |
| Goats             | 4,247  |
| Horses and Ponies | 63     |
| Others            | 676    |
| Total             | 32,643 |
| Total Poultry     | 16,249 |

## A Review of Economic Trends in Andhra Pradesh, Jan-March, 1963

### Introduction :

The general economic situation in the State during the quarter under review was satisfactory. The outlook for agriculture was bright while, wholesale prices of agricultural commodities showed a general downward trend. Industrial production was higher but employment opportunities did not indicate any sign of improvement.

### Agricultural Operations :

At the commencement of the quarter under review, generally dry weather prevailed all over the State and the rainfall was reported to be nil in all the districts of Andhra Pradesh. However, insufficient rainfall was reported in Kollapur taluk of Mahboobnagar district.

Preparatory tillage operations were reported to have been completed in almost all the districts except, in Srikakulam and Chittoor districts. In parts of West Godavari, Anantapur and Warangal districts, however, it was reported to be in progress. Ploughing of lands for raising seed beds for second crop wet paddy was in progress in Kaikalur and Bandar taluks of Krishna district. Sowings of paddy to a limited extent under some irrigation sources in Anantapur district and of 'irrigated groundnut' in Kalahasti taluk of Chittoor district were reported to be in progress. Transplantation of second crop paddy in Razole and Amalapuram taluks of East Godavari district, Dalwa paddy in West Godavari district, short term

paddy in Darsi, Rapur and Gudur taluks of Nellore district, Second crop paddy in parts of Kurnool district and of paddy to a limited extent under some irrigation sources in Anantapur district was reported to be in progress. The Second Crop paddy was also being transplanted in parts of Rajampet and Badvel taluks to a restricted extent in Cuddapah district and Narayankhed, Narasapur and Gajwel taluks of Medak and also in parts of Warangal districts.

The condition of the Standing Crops was reported to be fair in all the districts of the State except, in Kavali taluk of Nellore district where the paddy crop was reported to have been affected considerably by 'blight' and in Kalyandrug taluk where it was reported that the hingari crops were withering for want of timely rains.

### Food Situation :

At the beginning of the quarter under review, adequate stocks of paddy and rice were available in the open market for purchase by the public. The movement of rice was free within the Southern Zone except, to border areas because of restriction on Railway Bookings. No difficulty in the movement of foodgrains was reported within the State.

2,000 Fair Price Shops were sanctioned to be opened in the districts of Hyderabad, Adilabad, Nalgonda, Medak, Karimnagar, Khammam, Warangal, Mahboobnagar, Kurnool, Guntur, Nellore, Cuddapah, Ananta-

pur, Chittoor, Visakhapatnam and Krishna districts. Out of this, 561 shops were actually functioning in the State during the quarter under review. By the end of the quarter, 64,573 tons of rice were procured by the State Government on behalf of the Government of India out of which 21,889 tons of rice were actually moved. The stocks of rice for supply to the fair price shops were given by the Government of India from the Storage Reserves of 25,000 tons of rice to the State Government. (Refer Table).

#### Prices :

During the quarter under review, the average wholesale prices of important agricultural commodities in Andhra Pradesh indicated a general downward trend as compared to the corresponding period of the previous year. Among the Cereals group all commodities, viz., Paddy I sort and II sort, Rice I sort and II sort, Wheat, Jowar white, Jowar yellow, Bajra and Ragi registered a decline in the prices to the extent of 12.3%, 12.7%, 10.2%, 12.2%, 24.1%, 1%, 5.6%, 0.8% and 10% respectively. Amongst the pulses the average wholesale prices of Greengram, Bengalgram, Horsegram, showed a downward trend of 2.9%, 4.7%, 4.0%, while, Redgram and Blackgram indicated a rising trend by 11.9% and 1.2% respectively. The prices of Cane-jaggery and Sugar showed a rising trend of 69.7% and 3.7% respectively. Amongst the oilseeds and Miscellaneous group, the average wholesale prices of Groundnuts, Gingelly seed and Castor seed, Tamarinder, Coriander and Cotton lint indicated a decline of 17.1%, 15.6%, 11.6%, 15.1%, 18.0% and 0.2% respectively whereas, Copra, Chillies, Turmeric, Garlic, Onions and Tobacco registered an increase of 18.2%, 56.6%, 17.3%, 3.8%, 16.9% and 20.6% respectively. (Refer Table II).

#### Consumer Price Index :

The General Consumer Price Index numbers at the four centres, viz., Hyderabad City, Warangal, Visakhapatnam and Eluru indicated a decrease of 6, 4, 2 and 22 points or 2.6%, 1.6%, 0.4% and 4% respectively during the period under review when com-

pared to the previous quarter of the preceding year while, there was a slight increase of 1 point at 0.4% at Nizamabad. Except, for a slight increase in the quarterly average consumer price index number of the good group at Nizamabad, the trend at the other centres was downwards as compared to the preceding quarter. But the trend in the case of all the other component groups at the various centres was upwards, except, for a slight decline in the quarterly average consumer price index numbers of the clothing group and the miscellaneous group at Eluru, compared to the preceding quarter. (Refer Table III).

#### Industries :

The industrial production during the quarter under review, showed general signs of improvement as compared to the previous quarter. The salt output was highest by 188.23% followed by rayon yarn (96.96%), paper (73.65%), sugar (62.87%), chemical fertilizers (59.51%), rayon fabrics (47.31%), and cotton yarn (36.35%). But certain industries like jute textiles, glass, cigarettes, coal, oxygen, country-spirit and bone-fertilizers registered a downward trend in output to the extent of 2.08%, 22.88%, 7.31%, 5.86%, 2.23%, 34.83% and 81.30% respectively.

The output of the industries under review reflected mixed trends when compared to the corresponding quarter of the previous year. While industries like, rayon yarn, rayon fabrics, glass, salt, country spirit and bone-fertilizers showed a decrease in output to the extent of 61.15%, 12.63%, 12.36%, 22.22%, 16.74% and 80.91% respectively, the production of cotton yarn, cement, cigarettes, coal, oxygen, asbestos cement, and chemical fertilizers was higher by 18.85%, 17.34%, 4.64%, 15.84%, 8.39%, 38.66% and 211.61% respectively (Refer Table IV).

#### Labour :

The Labour situation in the State deteriorated considerably during the quarter under review as compared to the corresponding quarter of the preceding year and the previous quarter. During the quarter under review, 20 disputes were reported

The number of employers utilizing the Exchanges during the quarter under review (791) was larger when compared to the corresponding quarter of the previous year (780). The number of employers under the Central Government reached the peak figure of 144 during the quarter under review as against 85 and 56 during the preceding and corresponding quarters of the previous year.

It may be observed that the number of placements effected during all the quarters under review was invariably lower than the number of vacancies notified at the Exchanges, presumably because, of inadequate number of qualified persons.\*

The unemployment situation as judged from the number of persons on the live registers at the Exchanges indicated a further deterioration. This number was as high as 1,20,825 at the end of March, 1963 as against 1,05,844 at the end of the corresponding month of the previous year. It was also higher by 1.9% as compared to the number at the close of the preceding month (Refer Tables VI and VII).

\* The Employment Exchanges, however, hold the view that the placements figure given in each month is bound to be less as there is delay in the intimation of appointments by the employers to the Employment Exchanges necessitating the vacancies being kept open.

**Plan Schemes :**

In the Annual Plan for 1962-63, a sum of Rs. 49.97 crores was allotted for the implementation of various plan schemes programmed for execution during the year. Subsequently, additional allotments were made to the extent of Rs. 3.40 crores for certain schemes such as, National Malaria Eradication Programme, Munjeera Water Supply Scheme and construction of Dam at Balimela and thus, a sum of

Rs. 53.37 crores was made available for expenditure during the year. However, in the context of the National Emergency and the instructions of the Planning Commission for the re-orientation of the development programmes and keeping in view the actual requirements of various developmental programmes the provision was reduced to Rs. 50.46 crores. The following list furnishes the details of original and revised provisions.

| Sl. No. | Head of Development          | PROVISION      |              |                |              |
|---------|------------------------------|----------------|--------------|----------------|--------------|
|         |                              | Original       | % to Total   | Revised        | % to Total   |
| 1.      | 2.                           | 3.             | 4.           | 5.             | 6.           |
| 1.      | Agricultural Programmes      | 1235.29        | 24.7         | 1127.07        | 22.3         |
| 2.      | Irrigation and Power         | 2151.39        | 43.2         | 2413.16        | 47.8         |
| 3.      | Industry and Mining          | 463.60         | 9.3          | 335.80         | 6.7          |
| 4.      | Transport and Communications | 276.00         | 5.5          | 331.29         | 6.6          |
| 5.      | Social Services              | 808.63         | 16.2         | 803.79         | 15.9         |
| 6.      | Miscellaneous                | 53.45          | 1.1          | 35.07          | 0.7          |
|         | <b>TOTAL</b>                 | <b>4996.69</b> | <b>100.0</b> | <b>5046.18</b> | <b>100.0</b> |

According to the provisional data available on the phased expenditure incurred during the year, the plan expenditure during the year amounted to Rs. 49.90 crores and constituted 98.9% of the revised provision of Rs. 50.46 crores. Out of the total expenditure of Rs. 49.90 crores incurred

during the year, a sum of Rs. 21.01 crores, i.e., 41.6% was spent, during the quarter ended March, 1963. The following table furnishes the progress of expenditure during the first three quarters and the fourth quarter of the year.

**Progress of Expenditure during the Quarter January-March, 1963.**

| Sl. No. | Head of Development          | Provision for 1962-63 | Expenditure in April-Dec., 1962 | Expenditure in January-March, 1963 | % of Col. 4 to Col. 5 | % of Col. 5 to Col. 3 |
|---------|------------------------------|-----------------------|---------------------------------|------------------------------------|-----------------------|-----------------------|
| 1.      | 2.                           | 3.                    | 4.                              | 5.                                 | 6.                    | 7.                    |
| 1.      | Agricultural Programmes      | 1127.07               | 748.02                          | 403.36                             | 66.4                  | 35.8                  |
| 2.      | Irrigation and Power         | 2413.16               | 1435.19                         | 972.96                             | 59.5                  | 40.3                  |
| 3.      | Industry and Mining          | 335.80                | 149.82                          | 156.71                             | 44.6                  | 46.7                  |
| 4.      | Transport and Communications | 331.29                | 164.28                          | 139.44                             | 51.9                  | 44.1                  |
| 5.      | Social Services              | 803.79                | 376.77                          | 412.79                             | 46.0                  | 50.4                  |
| 6.      | Miscellaneous                | 35.07                 | 15.64                           | 15.43                              | 44.5                  | 43.9                  |
|         | <b>TOTAL</b>                 | <b>5046.18</b>        | <b>2889.72</b>                  | <b>2100.69</b>                     | <b>57.3</b>           | <b>41.6</b>           |

Thus, from the above table it may be observed that nearly 40% of the expenditure was incurred during the fourth quarter under almost all the heads of development and, this was partly due to the concerted efforts made by the State Government

to reduce the shortfalls in expenditure during the year by taking all immediate possible steps to overcome the difficulty experienced by imports in the implementation of their Plan Programmes (Refer Table VIII).

## Pattern of Consumption and Consumer Expenditure in Andhra Pradesh During July 1959-June 1960.

(Based on the Socio-Economic Survey, 1959-60 conducted by the Bureau of Economics and Statistics during 15th Round)

The statistics relating to the pattern of consumption and consumer expenditure are important for purposes of planning and for formulating the fiscal policy of the State. The National Sample Survey has therefore given priority to the collection of these statistics on an all-India basis and a schedule on this topic has been canvassed in almost all the rounds so far completed by the National Sample Survey. The period of survey on consumer expenditure was taken as one year and the sample households were staggered uniformly over the entire year under investigation. For each household, information on its expenditure during 30 days preceding the date of visit was collected once. In all, 592 households selected from 216 selected villages and 153 households selected from 153 selected Urban Blocks were covered in the State sample for the survey on consumer expenditure. A copy of the schedule used in the enquiry is given in Annexure (A). The estimates of consumer expenditure, etc., obtained from the State sample are discussed below:—

### *Distribution of households and population according to expenditure classes :*

The estimates of the number of households, population and average household size in rural and urban areas, classified according to **per capita** expenditure classes are presented in Tables I to III. It will be observed that 47.01% of the rural households covering 50.52% of the rural population are in the per capita monthly expenditure class 0—15, while, only 28.03% of the urban households covering 32.44% of the urban population are in that class. It is also significant that 33.58% of the urban households covering 29.63% of the urban population have a monthly per capita ex-

penditure of more than Rs. 24 while, only 15.50% of the rural households covering 14.32% of the rural population belong to the higher expenditure group. This is in conformity with the general expectation that the incomes, and consequently the expenditure are lower in the rural areas as compared to the urban areas.

### *Household Size :*

Table III shows the size of the household in different per capita expenditure classes. Generally, the size of the household decreases with an increase in expenditure. Also, the average size of an urban household is slightly smaller than a rural household.

### *Pattern of Consumer Expenditure :*

Tables IV to VII show the average monthly expenditure by households belonging to different expenditure classes and the percentage distribution of expenditure on the various items.

In the rural areas, the percentage expenditure on food shows a decrease as the level of per capita expenditure increases, and the lowest percentage of expenditure on food can be noticed in the monthly per capita expenditure groups of Rs. 34—43 and 55 and above. In the monthly per capita expenditure group of Rs. 8.11 the percentage of expenditure on non-food items is only 12.69, while, on food items it is as high as 87.31 which is the highest when compared to the other classes.

In urban areas also the proportion of total consumer expenditure on food items in lower classes is higher when compared to that of the upper classes, whereas, the

proportion of the total expenditure on non-food items is smaller amongst lower classes than in upper classes.

It may be seen that on an average, 75.72% of the total consumer expenditure is spent on food items by a rural household as against 70.31% by an urban household.

The consumption of food-grains in rural areas constitutes 47.58% of the total expenditure as against 33.89% in urban areas. The expenditure on milk and milk-products, meat, sugar, fuel and light, rent and miscellaneous items is more in the urban areas than in rural ones. However, the expenditure on clothing in urban areas is reported to be much less (4.07%), than in the case of rural areas (7.28%).

The pattern of consumption expenditure may also be observed in terms of monetary values in the following paragraphs.

The total per capita monthly expenditure of rural and urban sectors is about Rs. 17.29 and Rs. 20.51 respectively. The average monthly per capita consumption expenditure on food grains in the rural sector is Rs. 8.37 as against Rs. 6.95 in the urban sector while, the expenditure on almost all the other items except, clothing in the urban areas is higher compared to the rural households.

In Tables VIII and IX the quantities of different cereals and other items consumed on the average, by a rural and urban household are given.

Coming to the average monthly per capita consumption of individual items comprising foodgrains, it may be noticed that the consumption of Rice in terms of rupees is more in the urban areas than in the rural ones. Out of the per capita monthly expenditure of Rs. 6.95 on cereals, consumption of rice constitutes Rs. 5.81 in the urban sector, whereas, it is only Rs. 5.16 in the rural sector compared to the total monthly expenditure of Rs. 8.37 on cereals. This may be due to the consumption of certain high quality varieties of rice in the urban areas and also due to the variations in price levels in both the sectors.

The proportion of Rice compared to the total cereals consumed is more in the urban than in the rural areas. This may be due to the fact that the rural people are habituated to the consumption of home-grown stocks of other cereals such as, maize, jowar, bajra and ragi. The monthly per capita expenditure on wheat is 34 nP in the urban as against 5 nP in the rural sector while, the per capita expenditure for the State is 11 nP.

The average monthly per capita expenditure on cereals for the State as a whole is, Rs. 8.08, of which, Rs. 5.25 and Rs. 1.59 constitute the expenditure on Rice and Jowar respectively.

The consumption pattern of foodgrains and other items is discussed below in terms of quantities. (Tables X and XI). The average monthly per capita consumption of foodgrains is 18.19 seers in the rural areas as against 11.80 seers in the urban areas.

In urban areas the per capita consumption of Jowar is low for the higher expenditure classes, while, the consumption of Rice is higher. In the urban sector Rice, Jowar and Wheat constitute the important cereals consumed while, in the rural sector the order of importance is as follows, Rice, Jowar, Ragi, Bajra.

Table XII and XIII show the per capita monthly consumer expenditure as per cash purchase and home-grown stock.

Out of the per capita monthly expenditure of Rs. 5.16 on rice in the rural sector, cash-purchase accounts for Rs. 2.52 and home-grown stock for Rs. 2.13, while, in the urban sector cash purchase accounts for Rs. 4.78 and home-grown stock for Rs. 0.92 nP. Out of a total per capita monthly expenditure of Rs. 5.81 on rice. The major portion of the per capita expenditure on rice will thus, be in the form of cash purchases in both the sectors.

Rent constitutes a major item of consumption expenditure in the urban sector (4.29%), while, in the rural sector it is negligible (0.06%).

In Tables XIV and XV the per capita consumption of cereals and pulses and also per household have been presented for Rural and Urban sectors separately in terms of quantity. The consumption of cereals and pulses per household in terms of quantity is more in the Rural than the Urban sector. The consumption of Rice per household constitutes 51.02% and 76.27% of the total quantity of pulses and cereals consumed by the rural and urban sectors respectively. Wheat occupies the third place in order of importance so far as the

consumption of foodgrains in the urban sector is concerned, while, it has the last but one in the rural sector.

The value of consumption in monetary terms per household and per person on important items can be observed in the Tables XVI and XVII. The percentage of the consumption of rice to the total cereals in terms of quantity is 51.02 in the rural sector while, the percentage of consumption in terms of value is 61.65. In the case of the urban sector, the corresponding figures are 76.27 and 83.60 respectively.

## Notes And News

### THE WORKING OF THE ANDHRA PRADESH STATE FINANCIAL CORPORATION, 1962-63

During the year 1962-63, the Andhra Pradesh State Financial Corporation received 64 applications from industrial firms for an aggregate loan of Rs. 106.85 lakhs as against 126 applications for a sum of Rs. 159.84 lakhs during the preceding year. The fall in the receipt of applications during the year under review was mostly in the case of metallic and non-metallic products' industries which, accounted for only 37 applications for Rs. 50.63 lakhs as against 85 applications for Rs. 87.44 lakhs in the preceding year. However, the majority of the applications received were from this group itself during the year under review, and accounted for 57.8% of the total while the amount applied for represented 47.4% of the total.

The Corporation, however, sanctioned only 41 applications or 64.1% of the total received during the year under review as against 105 applications or 83.3% of those

received in the previous year. The amount actually sanctioned during 1962-63 was also less being only Rs. 80.49 lakhs as against Rs. 98.83 lakhs during 1961-62 thus indicating a decrease of 18.6%. It is interesting to note that as in the previous year the lion's share of the amount sanctioned, i.e., about Rs. 34.04 lakhs or 42.3% of the total was allotted to the Metallic and Non-Metallic group as against Rs. 48.32 lakhs or 48.9% during the last year. Next in order were textiles with Rs. 24.00 lakhs or 29.8%. This was an improvement as compared to the preceding year when the Chemicals group received only Rs. 10.90 lakhs or 11.0% of the total and occupied the second place. It is also significant to note the next to the metallic and non-metallic group, chemicals accounted for more applications (7) as in the previous year but the amount sanctioned towards it (Rs. 10.63 lakhs) formed only 13.2% of the total when compared to Textiles with only four applications. It is thus clear that the Chemical units applied for much smaller loans than the Textile units. (Refer Tables I and II below).

**TABLE I.**

Owing to the fact that the State Financial Corporation could not advance any loan exceeding a maximum of Rs. 20.00 lakhs to an individual unit, the applications for industrial credit were from medium and small-scale industries only. In this connection it is to be noted that the State Finan-

cial Corporation acts as the agent to the Industrial Finance Corporation of India so far as applications seeking loans exceeding Rs. 20.00 lakhs are concerned. The following frequency distribution of applications sanctioned according to the range of amount of credit sought makes an interesting study:—

TABLE III.

**Statement Showing the Amount-wise Classification of the Loans Sanctioned  
According to the Amount.**

| Range (Rs.)           | No.       | During 1962-63        | No.        | Since Inception       |
|-----------------------|-----------|-----------------------|------------|-----------------------|
|                       |           | Amount<br>(Rs. lakhs) |            | Amount<br>(Rs. lakhs) |
| 1.                    | 3.        | 4.                    | 5.         | 6.                    |
| Below 25,000          | 8         | 1.54                  | 110        | 19.31                 |
| 25,000 — 50,000       | 7         | 2.69                  | 81         | 30.80                 |
| 50,000 — 1,00,000     | 10        | 6.60                  | 68         | 48.87                 |
| 1,00,000 — 5,00,000   | 13        | 39.66                 | 72         | 175.25                |
| 5,00,000 — 10,00,000  | 2         | 15.00                 | 17         | 130.52                |
| 10,00,000 — 20,00,000 | 1         | 15.00                 | 1          | 15.00                 |
| <b>TOTAL</b>          | <b>41</b> | <b>80.49</b>          | <b>349</b> | <b>419.75</b>         |

As may be seen from the above table, the Corporation sanctioned only one application which sought credit between Rs. 10.00 lakhs and Rs. 20.00 lakhs during the year 1962-63 and this was the only application of its kind sanctioned so far by the Corporation, since its inception. It is significant to note that the majority of the applications (61.0%) sanctioned in 1962-63 sought credit below Rs. 1.00 lakhs as against 74% represented by this range since the inception of the Corporation.

Since its inception in 1954-55 the Corporation has sanctioned upto 31st March, 1963, 349 applications for an aggregate sum of Rs. 419.75 lakhs, i.e., 279.8% of the total paid-up capital, of which, a sum of Rs. 161.42 lakhs or 38.5% was outstanding at the end of the year under review. These loans were fully secured of which, a sum of Rs. 100.20 lakhs or 62.1% of the total was also secured by personal guarantee. The breakup of the loans and advances according to the size of the industrial unit was as follows:

| Sl. No.  | Size    | Amount sanctioned % to Total<br>(Rs. lakhs) |       |
|--|---------|---|-------|
| 1.   | 2.      | 3.  | 4.    |
| 1. Large Scale Industries (Assets exceeding Rs. 20 lakhs)                | .. .. . | 55.24                                       | 34.2  |
| 2. Medium Scale Industries (Assets between Rs. 5 lakhs and Rs. 20 lakhs) | .. .. . | 54.81                                       | 34.0  |
| 3. Small Scale Industries (Assets of less than Rs. 5 lakhs)              | .. .. . | 51.37                                       | 31.8  |
| TOTAL  |         | 161.42                                      | 100.0 |

It is significant to note that the loans and advances were almost evenly distributed among the large, medium and small-scale industries. The breakup of the loans and advances according to the ownership pattern of the concerns show that the Corporation appears to have favoured much the corporate sector of industry (Joint Stock Companies, either Private or Public

limited) as it claimed Rs. 64.68 lakhs or 40.0% of the total followed by partnership concerns (Rs. 35.16 lakhs or 21.8%) and Co-operatives (Rs. 31.50 lakhs or 19.6%) while, the proprietary concerns, Joint Hindu Families and Trusts together accounted for only Rs. 30.08 lakhs or 18.6% of the total. The following are the details:

| Sl. No.                      | Type of Ownership | Amount sanctioned % to the Total<br>(Rs. lakhs) |       |
|------------------------------|-------------------|---|-------|
| 1.                           | 2.                | 3.  | 4.    |
| 1. Proprietary               | .. .. .           | 17.62   | 10.9  |
| 2. Partnership               | .. .. .           | 35.16   | 21.8  |
| 3. Hindu Joint Family        | .. .. .           | 12.16   | 7.5   |
| 4. Co-operatives             | .. .. .           | 31.50   | 19.6  |
| 5. Private Limited Companies | .. .. .           | 22.46   | 13.9  |
| 6. Public Limited Companies  | .. .. .           | 42.22   | 26.1  |
| 5+6. Corporate Sector        | .. .. .           | 64.68   | 40.0  |
| 7. Trusts                    | .. .. .           | 0.30  | 0.2   |
| TOTAL                        |                   | 161.42  | 100.0 |

The following table gives the abstract of the loans and advances of the Corporation during 1956-57 to 1962-63:—

**TABLE IV.**  
**Abstract of Loans and Advances of the Corporation.**

| Year    | No. of Applica-<br>tions received | Amount applied<br>for (Rs. lakhs) | No. of applica-<br>tions sanc-<br>tioned | Amount sanction-<br>ed (Rs. lakhs) | Amount dis-<br>bursed (Rs.<br>lakhs) |
|---------|-----------------------------------|-----------------------------------|--|------------------------------------|--------------------------------------|
| 1.      | 2.                                | 3.                                | 4.                                       | 5.                                 | 6.                                   |
| 1956-57 | 30                                | 44.25                             | 22                                       | 44.55                              | 33.02                                |
| 1957-58 | 46                                | 53.57                             | 24                                       | 35.81                              | 18.24                                |
| 1958-59 | 32                                | 29.52                             | 24                                       | 15.94                              | 26.04                                |
| 1959-60 | 42                                | 62.54                             | 34                                       | 42.01                              | 11.43                                |
| 1960-61 | 248                               | 213.23                            | 71                                       | 65.90                              | 27.51                                |
| 1961-62 | 126                               | 159.84                            | 105                                      | 98.83                              | 53.71                                |
| 1962-63 | 64                                | 106.85                            | 41                                       | 80.49                              | 46.96                                |

As may be observed from the above table that there was a steady increase both in the number of applications received and the amounts sanctioned from year to year though the year 1961-62 seemed to indicate a sudden spurt. The gap between the amount sanctioned and the amount disbursed is also being filled up steadily.

While the foregoing paragraphs illustrated the activities of the Corporation in the capital market of the State, the working of the Corporation is analysed below.

The Corporation has earned during the year under review gross receipts worth Rs. 11.95 lakhs as against Rs. 9.88 lakhs in 1961-62, the increase in terms of percentage being 23.2. The increase was reflected mainly in the receipts under interest charges which went up from Rs. 9.60 lakhs to Rs. 11.42 lakhs, i.e., by 19.0%. It is gratifying to note that the receipts under interest charges on the loans and advances issued in 1962-63 formed 75.5% of the total receipts as against 62.2% only in the preceding year indicating thereby that the lending operations of the Corporation had expanded. The fall in the interest accrued on Government securities from Rs. 3.46 lakhs in the preceding year to Rs. 2.39 lakhs during the year under review, indicates that there was a welcome

diversion of funds to lending operations. The Corporation also acts as the agent to the State Government in disbursing loans sanctioned under the State Aid to Industries Act. A sum of Rs. 3,606 towards administrative charges was thus earned in this manner. The total amount thus disbursed by the Corporation aggregated to Rs. 31.66 lakhs including Rs. 1.80 lakhs disbursed during the year under review. The details are given in the table below:—

**TABLE V.**  
**Statement Showing the Receipts of the Corporation.**

| (Rs. in Lakhs) |                    |                |                |
|----------------|--------------------|----------------|----------------|
| Sl. No.        | ITEM               | 1961-62        | 1962-63        |
| 1.             | 2.                 | 3.             | 4.             |
| 1.             | Interest           | 9.60           | 11.42          |
|                | 1(a) On Advances   | 6.14<br>(62.2) | 9.02<br>(75.5) |
|                | 1(b) On Securities | 3.46<br>(35.0) | 2.39<br>(20.0) |
| 2.             | Others             | 0.28<br>(2.8)  | 0.54<br>(4.5)  |
|                | <b>TOTAL</b>       | <b>9.88</b>    | <b>11.95</b>   |

N.B.: Figures in brackets represent percentage to the total.

It may be said here that the Corporation has played a significant part in the development of industrial estates by giving preferential treatment to the units and financing upto 60% of the cost of the construction of buildings and 75% of the cost of machinery excluding erection charges.

### The Profit Allocation

The Corporation has made a net profit of Rs. 8.07 lakhs during the year under review as against Rs. 6.36 lakhs during the last year. The increase in the net profit enabled the Corporation to allot a higher provision of Rs. 3.98 lakhs towards taxation as against Rs. 2.58 lakhs in 1961-62. There was also a slight increase of 0.15 lakh in the amount transferred to the Reserve Fund which now stands at Rs. 4.10 lakhs at the end of the year 1962-63 as against Rs. 3.52 lakhs during the corresponding period of the last year. After these allocations, the amount available for payment of dividend was Rs. 3.35 lakhs which was less than Rs. 1.90 lakhs or 36.5%

to the guaranteed dividend (at  $3\frac{1}{2}\%$  or 5.25 lakhs) amount. The Corporation had again approached the State Government for subvention to make good of the deficit in the dividend amount available at the Corporation source. It is to be noted that though there has been a steady increase in the profit of the Corporation every year, it has not been able to stand on its own legs so far as the payment of guaranteed dividend is concerned. The total amount so far received by the Corporation on this account came to Rs. 18.24 lakhs. The Corporation is mainly relying upon the interest charges accrued on the loans and advances. Though lending is the chief activity of the Corporation, it alone cannot keep the Corporation going unless some side business is also taken up. Under the S.F.C. Act, 1951 the Corporation can make money through guarantees and underwriting of agreements and deferred payments. But so far this avenue has not been tapped. The following table gives the details of profit allocation:—

**TABLE VI.**  
**Distribution of Profits Earned by the Corporation.**

| Sl. No. | I T E M  | 1961-62 | 1962-63 |
|---------|--|---------|---------|
| 1.      | 2.   | 3.      | 4.      |
| 1.      | Net Profit .. .. .   | 6.36    | 8.07    |
| 2.      | Transfer to Reserve Fund .. .. .                                   | 0.58    | 0.73    |
| 3.      | Provision for taxes and doubtful debts .. .. .                     | ..      | ..      |
| 4.      | Provision for taxation .. .. .                                     | 2.58    | 3.99    |
| 5.      | Total (2+3+4) .. .. .  | 3.16    | 4.72    |

| 7.      | Guaranteed dividend liability @ $3\frac{1}{2}\%$ per annum .. .. . | 5.25    | 5.25    |
| 8.      | Subvention from the State Government (7—6) .. .. .                 | 2.05    | 1.75    |

### The Balance Sheet

The Corporation had improved its total assets and liabilities steadily. The total assets and liabilities of the Corporation which was only Rs. 160.99 lakhs at the end of the year 1956-57, have risen to Rs. 244.20 lakhs and the increase represent 51.7%. Though the Corporation did not expand its equity base which remained at Rs. 150.00 lakhs, its loan capital has risen to Rs. 54.99 lakhs. The reserves so far built up amount to Rs. 4.10 lakhs or 1.7% of the total liabilities only. On the other hand, the assets

position of the Corporation has changed to a great extent in recent years. The changes were mainly with regard to cash balances, and securities. The cash balances and securities of the Corporation which formed a high percentage (70.4) of the total assets in 1956-57 have dwindled to 19.9% of the total assets in 1962-63. This was due to the diversion of large amounts towards loans and advances whose percentage to the total assets has gone up from 25.1 in 1956-57 to 69.6 in 1962-63 which is a welcome sign. The following is the balance sheet of the Corporation.

**TABLE VII.**

# INDUSTRIAL RATIOS IN SOME SELECTED SMALL SCALE INDUSTRIES IN ANDHRA PRADESH.

## 1. Introduction:

An attempt is made in this note to analyse the working of four important Small Scale Industries in Andhra Pradesh in terms of industrial ratios. The note is based on the data on the Survey Reports conducted by the Government of India. Data pertaining to Andhra Pradesh in regard to four industries, viz., (1) Leather and Footwear industry, (2) Diesel Oil Engine industry, (3) Paints and Varnishing industry and (4) Sewing Machines industry in the small scale sector, are compiled and a comparative study is made in this note. The analysis embraces three important aspects of the industry, viz., (1) Capital structure, (2) Employment and (3) Output. The coverage of units is neither complete nor is it a sample survey from a total population of sampling units. At the same

time it covered important centres of the industry and facilitates a fairly objective study. In all, 36 units were covered under the four industries, the sewing machine industry being represented by only one unit while, the Diesel Oil Engine industry was represented by 16 units.

## 2. Capital Structure:

The total productive capital employed on all the four industries under review aggregated to Rs. 20.67 lakhs divided into Rs. 10.55 lakhs and Rs. 10.12 lakhs respectively under fixed and working capital. The fixed and working capital on an average were proportionately even while, it varied from industry to industry.

It may be seen from the table below that industries like Sewing Machines and Diesel Oil Engines have attracted more investment in the form of fixed capital, than working capital, the ratio being 2.9 and 1.7 respectively as against 0.6 and 1.0 maintained by Paints and Varnishes and Leather industries respectively.

**TABLE I.**  
**Ratio of Fixed and Working Capital.**

| Sl. No. | Industry                      | No. of Units | Fixed Capital Rs. | Working Capital Rs. | Total Capital Rs. | % of Col. 4 over Col. 6 | Ratio of fixed to working Capital |
|---------|-------------------------------|--------------|-------------------|---------------------|-------------------|-------------------------|-----------------------------------|
| 1.      | 2.                            | 3.           | 4.                | 5.                  | 6.                | 7.                      | 8.                                |
| 1.      | Footwear and Leather Products | .. 14        | 1,57,500.0        | 1,60,500.2          | 3,18,000.2        | 49.5                    | 1.0                               |
| 2.      | Diesel Oil Engines and Parts  | .. 16        | 5,14,000.0        | 3,09,000.0          | 8,23,000.0        | 62.5                    | 1.7                               |
| 3.      | Paints and Varnishes          | .. 5         | 2,83,406.0        | 5,07,964.0          | 7,91,370.0        | 35.8                    | 0.6                               |
| 4.      | Sewing Machines and Parts     | .. 1         | 1,00,000.0        | 35,000.0            | 1,35,000.0        | 74.1                    | 2.9                               |
|         | <b>TOTAL</b>                  | .. 36        | 10,54,906.0       | 10,12,464.2         | 20,67,370.2       | 51.0                    | 1.0                               |

TABLE II.

## Capital Structure per Unit.

| Sl. No. | Industry                         | Fixed Capital Per Unit (Rs.) | Working Capital Per Unit (Rs.) | Total Capital Per Unit (Rs.) |
|---------|----------------------------------|------------------------------|--------------------------------|------------------------------|
| 1.      | 2.                               | 3.                           | 4.                             | 5.                           |
| 1.      | Footwear and Leather Products .. | 11,250.0                     | 11,464.3                       | 22,714.3                     |
| 2.      | Diesel Oil Engines and Parts ..  | 32,125.0                     | 19,312.5                       | 1,01,437.5                   |
| 3.      | Paints and Varnishes ..          | 56,681.2                     | 1,01,592.8                     | 1,58,274.0                   |
| 4.      | Sewing Machines and Parts ..     | 1,00,000.0                   | 35,000.0                       | 1,35,000.0                   |
|         | TOTAL ..                         | 29,302.9                     | 28,124.0                       | 57,427.0                     |

It may be seen from the above table that the Paints and Varnish industry attracted the highest total capital investment per unit (Rs. 1.58 lakhs), followed by Sewing Machines (Rs. 1.35 lakhs), Diesel Oil Engines (Rs. 1.01 lakhs), and Footwear and Leather (Rs. 0.23 lakh). The breakup figure would show that Sewing Machines require a larger share of the fixed capital than all the other industries while, the Paints and Varnishes were in need of more working capital.

### 3. Employment:

The Capital structure per person employed shows the capital labour intensity of the industries under review. It may be seen from the table below that in the Footwear and Leather industry only Rs. 1,786.5 were invested per every person employed as against Rs. 4,551.1 in Diesel Oil Engines, Rs. 9,038.0 in Paint and Varnishes and Rs. 4,666.7 in Sewing Machines. On an average, all the four industries in question invested Rs. 4,063.2 per person employed. The breakup of investment into

fixed and working capital per person employed would show that the Paints and Varnishes industry employed the highest amount per person both in fixed and working capital, being Rs. 5,904.3 and Rs. 10,582.6 respectively as against the minimum fixed capital of Rs. 884.8 in Footwear and Leather Products and Rs. 777.8 in working capital in the Sewing Machines industry. It is interesting to note that most of the units in Footwear and Leather Products industry invested less than Rs. 5,000 total capital and of all industries it accounts for the minimum capital. Taking this as an ideal industry, it will be interesting to study the capital-labour ratio for every Rs. 5,000. The following table show that this ratio is 2.8 in Footwear and Leather industries, i.e., for every Rs. 5,000 invested, the employment potential works out highest at 2.8 followed by 1.7 in Sewing Machines, 0.7 in Diesel Oil industry and 0.3 in Paints and Varnishes. On an average, this ratio works out to 1.2 for all industries. The details may be seen in the following table:—

**TABLE III.**  
**Capital Structure Per Person Employed.**

| Sl. No. | Industry                      | No. of persons employed (L) | Fixed Capital per person (Rs.) | Working Capital per person (Rs.) | Total Capital per person (Rs.) | $\frac{L}{C} \times 5,000$ |
|---------|-------------------------------|-----------------------------|--------------------------------|----------------------------------|--------------------------------|----------------------------|
| 1.      | 2.                            | 3.                          | 4.                             | 5.                               | 6.                             | 7.                         |
| 1.      | Footwear and Leather Products | .. 178                      | 884.8                          | 901.7                            | 1,786.5                        | 2.8                        |
| 2.      | Diesel Oil Engines and Parts  | .. 229                      | 5,738.0                        | 1,349.3                          | 7,087.3                        | 0.7                        |
| 3.      | Paints and Varnishes          | .. 48                       | 5,904.3                        | 10,582.6                         | 16,486.9                       | 0.3                        |
| 4.      | Sewing Machines and Parts     | .. 45                       | 2,222.2                        | 777.8                            | 3,000.0                        | 1.7                        |
|         | <b>TOTAL</b>                  | .. 500                      | 2,109.8                        | 2,024.9                          | 4,134.7                        | 1.2                        |

( L = Labour; C = Capital )

#### 4. Output:

The following table gives the capital output employment output ratio for the above small scale industries:—

**TABLE IV.**  
**Ratios of Capital Output and Employment Output.**

| Sl. No. | Industry                            | Production (Rs.) | Production per Unit (Rs.) | Ratio of Capital Output | Output per Person Employed (Rs.) |
|---------|-------------------------------------|------------------|---------------------------|-------------------------|----------------------------------|
| 1.      | 2.                                  | 3.               | 4.                        | 5.                      | 6.                               |
| 1.      | Footwear and other Leather Products | .. 3,45,588.6    | 24,684.9                  | 0.9                     | 1,941.5                          |
| 2.      | Diesel Oil Engines and Parts        | .. 10,42,200.0   | 65,137.5                  | 0.8                     | 4,551.1                          |
| 3.      | Paints and Varnishes                | .. 4,33,824.0    | 86,764.8                  | 1.8                     | 9,038.0                          |
| 4.      | Sewing Machines and Parts           | .. 2,10,000.0    | 2,10,000.0                | 0.6                     | 4,666.7                          |
|         | <b>TOTAL</b>                        | .. 20,31,612.6   | 56,433.7                  | 1.0                     | 4,063.2                          |

The total output of all industries aggregated to Rs. 20.32 lakhs of which, the output in Diesel Oil Engines industry alone, claimed a share of 50%. But the output per unit indicates that Sewing Machines with only one unit accounted for Rs. 2.10 lakhs or 10.3% of the total. On the other hand, the capital output ratio was highest at 1.8 in Paints and Varnishes followed by Footwear and other Leather industries (0.9), Diesel Oil Engines (0.8), and Sewing Machines (0.6), while the average for all industries worked out to 1.0:1.0. In con-

trast, the labour-output ratio indicates the highest labour productivity in Paints and Varnishes (Rs. 9,038.0), followed by Sewing Machines (Rs. 4,666.7), Diesel Oil Engines (Rs. 4,551.1), and a minimum output of Rs. 1,941.5 in Footwear and other Leather industries.

The above study makes it clear that while the Leather industry has employment as its basis the Paints and Varnishing industry has capital for its base. Labour productivity is also highest in the Varnishing industry.

# Diary of Events of Economic Interest

APRIL-JUNE, 1963.

## April, 1963 :

1. The Union Government sanctioned over Rs. 10 crores to 11 States to finance their approved Flood Control Schemes.  
The Central Sales Tax (Amendment), Act came into force.
4. An Agreement was signed between M/s. Prommashexport of Moscow and the Heavy Electricals Co. Ltd. for a total value of Rs. 14,25,000 for the supply of design documentation for machinery articles like drilling rings, forging machinery, etc., to be manufactured at Ranchi.
8. The Government of Andhra Pradesh issued orders that the loans and grants sanctioned by the State Khadi and village Industries Board should be channelled through Panchayat Samithis.
11. An agreement was signed for a loan of 3.5 million pounds sterling (Rs. 4.5 crores), by the British Government to the Government of India.
12. The Union Ministry of Works, Housing and Rehabilitation sanctioned Rs. 3,98,700 to the Government of Andhra Pradesh under the subsidised Industrial Housing Scheme.
17. The Government of Andhra Pradesh sanctioned a sum of Rs. 1,42,000 towards loan, share-capital and subsidy of the Hyderabad Fishermen's Central Co-operative Society.
